JTB COLOUR TRENDS

PURE CONTRAST

Pure Contrast brings fresh energy and exciting combinations to the table. Bright, light tones are effortlessly combined with warm accents and surprising colour contrasts, creating a vibrant setting.

This trend emphasises balance between freshness and warmth, showing that a table setting can be both bold and sophisticated without being overpowering.

With pure colours, dynamic accents and an open look, create a table that invites to meet, share and enjoy.

JTB COLOUR TRENDS

SCULPTED BY NATURE

Sculpted by Nature brings a natural look to the table.
Soft earth tones, robust shapes and sophisticated, weathered textures create an atmospheric setting where simplicity and character come together.

Emphasising artisanal details and natural materials, this trend shows that a table doesn't have to be lavish to impress.

With pure colours and a calm look, create a inviting table that is perfect for any occasion.
